			look at two of the hardest challenges many		
			companies face today: Compliance and		
			Engagement. This presentation addresses		
			these issues by uncovering the personal		
			value in safety both on the job and at		
			home and delivers a clear path for		
			attendees to follow. By challenging the		
			status quo and the ?what?s in it for me?		
			mentality, this message is designed to get		
			attendees to develop a stronger value on		
			their own personal safety as well as the		
			safety of others while gaining essential		
			insight on how to give back, ultimately creating their own safety legacy. Through		
			a lecture style format, our Leaving a Safety		
			Legacy presentation has been making an		
			impact at conferences and events across		
			the country with attendees finding the		
			message genuine, entertaining, and		
			heartfelt. Conference planners are finding		
			the message as the perfect way to		
			energize an event as it sets the table for		
			attendees to take a closer look at what		
			they want/expect to get from the		
			conference and challenges them to ask		
THE INVISIBLE SIF: What HOP Has Missed			themselves ?why? are they here?? In this

Eric explains the circumstances and events that led up to his accident and the profound effects it has had on him and his family for the last twenty one years. Eric speaks from the heart with a desire for the listeners to learn from his death defying safety message. He has a very genuine approach and the intent of his presentation is to prevent this experience from ever happening to anyone again. Eric explains how he is an average guy and a series of extraordinary events left him with an unbelievable story to tell. Once you have heard Ericiis story, damage prevention will be more important to you than ever before!" Refreshments in exhibitor areas. Visit exhibitors and network. 			Stepping into a safety leadership role		
			requires more than technical knowledge. It		
			demands purpose, empathy, and the		
			ability to inspire others to act. This session		
			explores how new and emerging safety		
			leaders can leverage the principles of		
			servant leadership to build trust,		
			strengthen culture, and drive meaningful		
			performance.		
			Attendees will learn how to:		
			Shift from authority-based management influence based leadership		
			to influence-based leadership • Foster collaboration and ownership		
			across teams and contractors		
			Lead with authenticity to create a safer,		
			more connected workforce		
			Drawing from real-world experience and		
			leadership lessons, this session will equip		
Leading with Purpose: How New Safety			participants with practical strategies to		
Leaders Can Embrace Servant Leadership			lead with purpose and leave a lasting		
for Greater Impact	10/31/2025 8:00	10/31/2025 9:00	impact on people and performance.	Ballroom	ScottGaddis
